Laboral experience

University of Sonora. Hermosillo, Sonora. — Project Manager

March 2022 - Present

I'm currently Project Manager of the project "Digitization and automation of forms for internal laboratory procedures" for the Department of Chemical Biological Sciences

DRi Cómputo. Hermosillo, Sonora. — IT Specialist

June 2021 - Present

I provide information technology services and consultancies for companies and individuals. Such as repair of computer equipment like desktop computers, laptops and printers. Also in the installation of time attendance devices, servers, antennas and telephony. I provide advice and training to the users. I build desktop computers, from looking at component compatibility to getting the gear ready.

Nortec Seguridad. Hermosillo, Sonora. — Network Technician

January 2020 - January 2021

I developed within the company in the area of electronic security and telecommunications. Mainly in the implementation and configuration of the devices that are integrated in the different companies of the industrial and commercial sector. Devices such as video surveillance cameras, antennas and access controls.

Education
